

6. What are the factors and conditions that can lead to a successful intergovernmental agreement with another cities or county?

7. What are the barriers, obstacles, or limitations that work against an intergovernmental agreement from being reached?

8. How are you able to overcome those barriers through the negotiation process?

9. Are there any other cities or counties that you could foresee a benefit to having an intergovernmental agreement with (that you have not already identified)? If so what are the names of those other cities or counties and what are the issues that you would like to see addressed?
